# CREATE A STUNNING WORKSPACE.

Most people spend as much time at their desk as in bed. That's why it is so important to have a desktop that you love. Experience the look and feel of desktop options in person before ordering your UPLIFT desk.

## DESKTOP SAMPLES

Thousands of beautiful desktops in hundreds of different desktop materials, colors, and sizes are stocked and ready to ship the day you order. Desktop samples are 7" x 7" and match the actual thickness of the desktops.

Visit the [Desktop Samples](#) page to order samples.

## CUSTOM SOLID WOOD DESKTOP SAMPLES

Conveniently sized 7" x 7" samples match the actual thickness of the desktops and are large enough to provide a feel for the texture, natural grain patterns, and seam joints of our custom solid wood desktops

Visit the [Custom Solid Wood Desktop Samples](#) page to order samples.

## CUSTOM LAMINATE DESKTOP SAMPLES

Order samples of the Custom Laminate Desktops available for purchase with the [Custom Laminate Standing Desk](#), [Custom Laminate 24" Deep Standing Desk](#), and [Custom Laminate L-Shaped Standing Desk](#).

Please visit [Wilsonart](#) to order samples.

(Return) in 2" increments.

## CURVED CORNER

Curved Corner with a right return.

### Stocked Sizes

Available in both right-side or  
left-side return configurations in  
one size 72" M x 47" R.

# LAMINATE

1" thick & ship same day

## FEATURES

- Available in Rectangular, L, and 120° shapes.
- For those who prefer perfect lines, consistent color, and matching patterns over the natural, unique qualities of solid wood.
- Meets the world's highest standards for low chemical emissions. Greenguard Gold + NSF + FSC + SCS + LEED.

Laminate desktops are scratch and water resistant. All UPLIFT laminate desktops are [Greenguard-Gold Certified \(pdf\)](#) to meet the world's strictest standards for low chemical emissions and healthier indoor environments.

The desktop core is an 80% pre-consumer recycled wood fiber high-density particle board.

Our most popular desktops due to their durability, consistent colors, price, and availability.

# BAMBOO

1" thick & ship same day

## FEATURES

- Available in Rectangular, L, Curved Corner, and 120° shapes.
- Solid bamboo desktops are sustainable and beautiful.
- 40% harder than oak, bamboo desktops combine style and durability.
- Beautiful corner and edge details, rich tones, subtle grain variation, and a durable ultraviolet-cured finish.
- Rich tones and subtle grain variation, topped off with a UV-cured, low-VOC finish for improved durability and indoor air health.

Add some zen to your office. These solid bamboo desktops are sustainable and beautiful. At 1" thick, they are 33% thicker than competing bamboo desktops. The increased thickness provides a larger and more attractive edge profile with increased sturdiness and longevity.

The Moso bamboo species produces the densest and hardest fibers of any bamboo species. Its fast-growing nature and ability to sequester carbon make it one of the most sustainable materials on the planet.

# BLACK BAMBOO CURVE

# ECO CURVE

1" thick & ship same day

## FEATURES

- Available in Rectangular and Curved Corner shapes.
- With a center cutout, smooth corners, and softly beveled edges, our Eco Curve desktops let you reach more of your workspace.
- The finish is eco-friendly, UV-cured, and is applied to all sides (even the bottom) to create a durable and resilient surface. It's a perfect finish for curved desktops that need to avoid seams on the front beveled edges. The finish has a light texture for an organic feel.

Eco Curve desktops use locally sourced, 1" thick high-grade MDF (medium density fiberboard) substrate created from 100% recycled materials and are certified by the Forestry Stewardship Council. The epoxy powder coat finish utilizes a proprietary, deep thermoset infra-red technology that produces the most durable powder coated MDF surface possible. During the finishing process, the epoxy powder coat is cross-linked

with the MDF substrate at a molecular level for superior hardness and durability.

These safe and eco-friendly desktops are completely free of formaldehyde, volatile organic compounds (VOCs), and hazardous air pollutants (HAPs) and are CARB-2 Compliant. Eco Desktops have the lowest carbon footprint in the industry due to the absence of edge banding, backer boards, adhesives, and solvents.

# RUBBERWOOD SOLID WOOD

1" thick & ship same day

## FEATURES

- Available in Rectangular, L, and Curved Corner shapes.
- Sustainability meets beauty in these environmentally conscious rubberwood desktops.
- Made from the wood of spent Pará rubber trees, giving them a second life.

Used for millions of products around the globe, Pará rubber trees produce 99% of the world's natural rubber latex. The rubber production lifespan of these trees is about 25-30 years, after which they're considered spent and chopped down.

The Pará trees are given a second life, though, as rubberwood—tough, solid, and nothing like rubber. The result is a beautiful, durable desktop that utilizes a byproduct material that would otherwise be wasted.

# BUTCHER BLOCK SOLID WOOD

1.5" thick & ship same day

## FEATURES

- Available in Rectangular shape.
- Butcher Block desktops present a durable and beautiful patchwork of wood planks with different grain patterns and colors.
- We plant five new trees in U.S. National Forests for every solid wood desktop sold. With your help, we have planted over a hundred thousand trees through our partnership with the National Forest Foundation. This ensures the resources we enjoy today will continue to be available for future generations.

Add a desktop with serious character with a one-of-a-kind, natural butcher block solid wood desktop. These 1.5" thick heavyweight desktops are created with a patchwork style utilized on block countertops, with unique grain patterns and colors.

Each butcher block desktop comes with unique and striking features that make them truly one-of-a-kind.\* Imperfections in the wood are addressed with color matching filler to ensure the surface of the desktop is smooth.

\*As they're naturally produced, our solid wood desktops come with asymmetrical lines, random grain patterns, variations in color, knots, tiny hairline cracks, and other natural irregularities. They reflect the untamed, pure habitat in which they grew and their imperfections are what make them desirable to begin with.

## FEATURES

- Available in Rectangular shape.
- Feel inspired at your desk everyday with our one-of-a-kind, natural, wide plank solid wood desktops.
- We plant five new trees in U.S. National Forests for every solid wood desktop sold. With your help, we have planted over a hundred thousand trees through our partnership with the National Forest Foundation. This ensures the resources we enjoy today will continue to be available for future generations.

Featuring rich colors and distinctive grains, each solid wood desktop comes with unique and striking features that make them truly one-of-a-kind.\* Natural imperfections in the wood surface are filled in with black filler to ensure the desktop's surface is smooth.

Solid Wood desktops have natural material variations that make them desirable to most customers. Natural wood material comes with variations in color, grain, knots, etc. If you are concerned about natural material variations, consider our Laminate or Eco Curve desktops.

\*As they're naturally produced, our solid wood desktops come with asymmetrical lines, random grain patterns, variations in color, knots, tiny hairline cracks, and other natural irregularities. They reflect the untamed, pure habitat in which they grew and their imperfections are what make them desirable to begin with.

## FEATURES

- Available in Rectangular and L shapes.
- Truly unique and exceptionally hardy, these exquisite desktops will endure for decades to come.
- Handcrafted to perfection by an expert woodworker.
- We plant five new trees in U.S. National Forests for every solid wood desktop sold. With your help, we have planted over a hundred thousand trees through our partnership with the National Forest Foundation. This ensures the resources we enjoy today will continue to be available for future generations.

Some things in life are worth the wait. Treat yourself to a handcrafted custom solid wood desktop made to order by expert woodworkers, cut to within a quarter inch of your specifications.

Each of these varieties are 1.75" thick and as unique and striking as they are hardy.\*

\*As they're naturally produced, our solid wood desktops come with asymmetrical lines, random grain patterns, variations in color, knots, tiny hairline cracks, and other natural irregularities. They reflect the untamed, pure habitat in which they grew and their imperfections are what make them desirable to begin with.
