GREENGUARD-GOLD LAMINATE

FEATURES

→ 1” thick
→ 24” and 30” deep rectangular desktops are available in 42”, 48”, 60”, 72”, and 80” widths for all in-stock laminate styles
→ 24” and 30” deep rectangular desktops are available in any size between 42-80” wide and 24-30” deep for all custom laminate styles
→ Available in Rectangular, L-Shaped, and 120 Degree shapes
→ For those that prefer perfect lines, consistent color, and matching patterns over the unique quality of solid wood
→ Meets the world’s highest standards for low chemical emissions. Greenguard Gold + NSF + FSC + SCS + LEED

Our 1 inch thick Greenguard-Gold certified laminate desktops are perfect for those who prefer a classic office look. If you prefer perfect lines, consistent color, and matching patterns over the unique quality of solid wood, you will be most satisfied with a laminate desktop. In order to achieve Greenguard-Gold certification, each of these laminate desktops meet the world’s highest standards for low chemical emissions. They have been tested for more than 10,000 chemicals, which makes them ideal for everyone, including schools and healthcare facilities. Translation: you get a desk that’s incredibly eco-friendly and safe to use in your home or office.

BAMBOO

FEATURES

→ 1" thick with attractive multiple-layer edge profile providing increased strength
→ 24” and 30” deep rectangular desktops are available in 42”, 48”, 60”, 72”, and 80” widths
→ Available in Rectangular, L-Shaped, and 120 Degree shapes

→ Made from Moso Bamboo, the fastest growing plant in the world
→ 40% harder than oak
→ Beautiful corner and edge details, rich tones, subtle grain variation, and a durable ultraviolet-cured finish

Your office deserves more zen. That’s why we offer a popular, solid bamboo desktop that is both sustainable and aesthetically pleasing. At an inch thick, our bamboo desktops are 33% thicker than the bamboo desktops offered by our competitors. This increased thickness provides a larger and more attractive edge profile with increased sturdiness and longevity that is 40% harder than oak. Our solid bamboo desktops also feature rich tones and subtle grain variation topped off with a UV-cured finish for durability.

Made from the fastest growing plant in the world, our solid bamboo tops feature beautiful corner and edge details, rich tones, subtle grain variation, and a durable ultraviolet-cured finish.

ECO CURVE

FEATURES

→ 1″ thick

→ 24″ and 30″ deep rectangular desktops are available in 42″, 48″, 60″, 72″, and 80″ widths for all in-stock laminate styles

→ Available in Rectangular shape only

→ All desktops have grommets except 80″ x 30″ rectangular desktops, which are available with and without grommet holes; 80″ x 30″ curved desktops are not available without grommet holes

Eco tops use locally sourced, clean fiberboard from Austin that’s over 100% diverted from manufacturing process discard streams during other manufacturing processes, recycled sawdust, and/or reutilization of rework and scrap materials. It’s certified by the Sustainable Forestry Initiative. We formulated a powder-coated finish that’s extremely durable, and it’s applied to the entire desktop so there are no seams. The finish is eco friendly, UV-cured, and is applied to all sides (even the bottom) to create a durable and resilient surface. It’s a perfect finish for curved tops that need to avoid seams on the front beveled edges. The finish has a light texture for an organic feel. Over the years we’ve refined our formula to lead the industry with the most durable, hard, and water-resistant powder coated MDF (medium density fiberboard) desktop. With a center cutout, smooth corners, and softly beveled edges, our Eco Curve desktops let you reach more of your workspace.

RUBBERWOOD SOLID WOOD

FEATURES

→ 1" thick
→ 24" and 30" deep rectangular desktops are available in 42", 48", 60", 72", and 80" widths for all in-stock laminate styles
→ Available in Rectangular shape only
→ All desktops have grommets except 80" x 30" rectangular desktops, which are available with and without grommet holes.

Don’t be confused by the name: rubberwood desktops do not have the consistency of rubber. In actuality, its solid wood lumber is hearty like that of other hardwoods, which we handcraft into beautiful solid wood desktops.

Rubberwood desktops begin their lives as Pará trees in Southeast Asia. Decades of tapping for priced latex-creating sap causes the rubberwood to harden and develop a natural lustre to its wood grains. Once ready, the lumber is sustainably up-cycled and repurposed as an eco-friendly and genuine solid wood desktop.*

*As they’re naturally produced, our solid wood desktops come with asymmetrical lines, random grain patterns, variations in color, knots, tiny hairline cracks, and other natural irregularities. They reflect the untamed, pure habitat in which they grew and their imperfections are what make them desirable to begin with.

BUTCHER BLOCK SOLID WOOD

FEATURES

→ 1.5” thick
→ 24” and 30” deep rectangular desktops are available in 42”, 48”, 60”, 72”, and 80” widths
→ Available in Rectangular shape only

All desktops have grommets except 80” x 30” rectangular desktops, which are available with and without grommet holes

Add a desktop with serious character with a one-of-a-kind, natural, butcher block solid wood desktop. These 1.5” thick, heavyweight desktops are created with a patchwork style utilized on block countertops, with unique grain patterns and colors.

Our butcher block solid wood desktop selection includes acacia, acacia chevron, birch, reclaimed birch, reclaimed fir, saman, and walnut. Each butcher block desktop comes with unique and striking features that make them truly one-of-a-kind.* Imperfections in the wood are filled in with black filler to ensure the surface of the desktop is smooth.

*As they’re naturally produced, our solid wood desktops come with asymmetrical lines, random grain patterns, variations in color, knots, tiny hairline cracks, and other natural irregularities. They reflect the untamed, pure habitat in which they grew and their imperfections are what make them desirable to begin with.

LIVE EDGE AVAILABLE ON ONE SIDE FOR ALL SIZES AND BOTH SIDES FOR 80” DESKTOPS
As they're naturally produced, our solid wood desktops come with asymmetrical lines, random grain patterns, variations in color, knots, tiny hairline cracks, and other natural irregularities.
CUSTOM SOLID WOOD

FEATURES

→ 1.75" thick
→ 24" and 30" deep rectangular desktops are available in 42", 48", 60", 72", and 80" widths
→ Cut within a quarter inch of your specifications
→ Rectangular and L-Shaped shapes available
→ All desktops have grommets except 80" x 30" rectangular desktops, which are available with and without grommet holes.

Some things in life are worth the wait. Treat yourself to a solid wood desktop handcrafted to perfection and made to order by expert woodworkers, cut to within a quarter inch of your specifications. Each of these 14 varieties are 1.75" thick, and as unique and striking as they are beautiful.* Samples kits are available to buy on our website. All custom order solid wood desktops take between 14 and 16 weeks to arrive.

*As they’re naturally produced, our solid wood desktops come with asymmetrical lines, random grain patterns, variations in color, knots, tiny hairline cracks, and other natural irregularities. They reflect the untamed, pure habitat in which they grew and their imperfections are what make them desirable to begin with.
