# Advanced Keypad with USB (FRM715) Control Box Compatibility
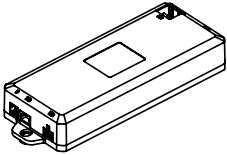

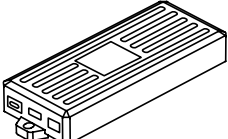

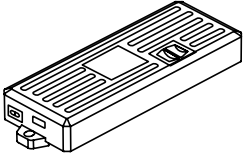

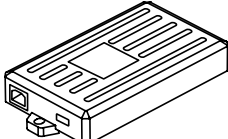

If you are purchasing the Advanced Keypad with USB along with a new UPLIFT desk, the keypad will be compatible with the control box and you can disregard the information here.

If you are purchasing the Advanced Keypad with USB as a replacement keypad for an existing UPLIFT Desk, please refer to the information below.
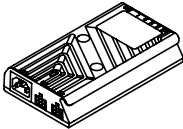

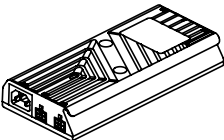

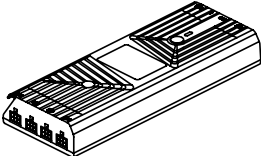

If the control box on your UPLIFT desk matches any of the "N-type" control box models shown below, it **is not** compatible with the Advanced Keypad with USB and you will need to purchase a new "NH-type" control box at https://www.upliftdesk.com/control-box-for-uplift-standing-desks/

N-Type control boxes

1-Leg Desk	2-Leg Desk	3-Leg Desk	4-Leg Desk

If the control box on your UPLIFT desk matches any of the "NH-type" control box models shown below, it **may or may not** need to be replaced depending on which keypad model you are replacing. Check your order details or contact us at support@upliftdesk.com to determine which keypad model you currently have. Then refer to the **Compatibility Table**, to the right, to determine whether a new control box is required.

NH-Type control boxes

1-Leg Desk	2-Leg Desk	3-Leg & 4-Leg Desks

Compatibility Table

Keypad model being replaced by the Advanced Keypad with USB (FRM715).		Is a new NH-type control box needed?
