

UPLIFT DESK

UPLIFT Spaces Wall System

ROOM

Design: Able to be fully enclosed with walls on all four sides.

Purpose: Designed for complete privacy, suitable for meetings and concentrated tasks.

Features: Offers isolation and acoustic separation. Add an optional sliding door to create a fully private space.

COVE

Design: Partially enclosed with one fully open side, offering a semi-private space.

Purpose: Maintains a sense of openness while providing a space to gather. Great for lounges, open offices, waiting rooms, and more.

Features: Addition of optional acoustic baffling and PET walls improve sound reduction.

CUBE

Design: A compact, divided space; can be customized with mid- or full-height walls, or enclosed for additional privacy.

Purpose: Provides individual privacy for focused work.

Features: Optional door and acoustic baffles increase sound reduction and provide even more privacy for focused work.

OPTIONAL CEILING BAFFLES

SHORT

More dramatic, perfect for expansive spaces, providing enhanced acoustic performance and a bold visual statement.

LONG

Minimalist and subtle, ideal for small spaces or areas with lower ceilings, offering effective sound control without dominating the design.

Ballpark Pricing Guide
